

Alaska Region 2004 Visitor Survey Card Data Report

Introduction

To assist the National Park Service in complying with the Government Performance and Results Act (GPRA), a visitor survey was conducted in 322 units of the National Park System in FY04. The survey was developed to measure each park unit's performance related to NPS GPRA Goals IIa1 (visitor satisfaction) and IIb1 (visitor understanding and appreciation).

The results of the Visitor Survey Card (VSC) survey conducted at 11 parks in the Alaska Region are summarized in this data report. A description of the research methods and limitations is on the back page.

Below (left) is a graph summarizing visitor opinions of the "overall quality of facilities, services, and recreational opportunities" in units of the region. This graph compares FY04 data (shown in black) with a six-year baseline data (FY98-03) shown in gray. The satisfaction measure below this graph is a combined percentage of "good" and "very good" responses. This is the primary performance measure for Goal IIa1. (The satisfaction measure may not equal the sum of "very good" and "good" percentages due to rounding.)

Below (right) is the FY04 GPRA reporting measure for Goal IIa1. The percentage included in the box should be used for reporting GPRA Goal IIa1 performance. The response rate for this region was 27%.

Overall quality of facilities, services & recreational opportunities

FY04: 11 parks; 876 respondents

FY04: Satisfaction measure: 96%
Average evaluation score: 4.6

Understanding the Results

Inside this report are graphs that present the combined survey results for the region. The report contains three categories of data—park facilities, visitor services, and recreational opportunities. Within these categories are graphs for each indicator evaluated by park visitors. For example, the park facilities category includes indicators such as visitor center, exhibits, restrooms, and so forth. In addition, responses for indicators within each category are averaged into a combined graph for the category (e.g., combined park facilities).

Each graph includes the following information:

- the number of parks and visitor responses for the indicator;
- FY04 data (black), and baseline data (gray);
- the percentage of responses which were "very good," "good," "average," "poor," and "very poor;"
- a satisfaction measure that combines the percentage of total responses which were "very good" or "good;" and
- an average evaluation score (mean score) based on the following values: very poor = 1, poor = 2, average = 3, good = 4, very good = 5.

The higher the average evaluation score, the more positive the visitor response.

- graph percentages may not equal 100% due to rounding

FY04 GPRA Reporting Measure for Goal IIa1

Percentage of park visitors satisfied overall with appropriate facilities, services, and recreational opportunities:

96%

Alaska Region Park Facilities

Visitor Center

FY04: 11 parks; 891 respondents

FY04: Satisfaction measure: 91%
Average evaluation score: 4.6

Exhibits

FY04: 11 parks; 882 respondents

FY04: Satisfaction measure: 90%
Average evaluation score: 4.4

Restrooms

FY04: 11 parks; 712 respondents

FY04: Satisfaction measure: 85%
Average evaluation score: 4.3

Walkways, trails, and roads

FY04: 11 parks; 690 respondents

FY04: Satisfaction measure: 88%
Average evaluation score: 4.4

Campgrounds and/or picnic areas

FY04: 11 parks; 274 respondents

FY04: Satisfaction measure: 78%
Average evaluation score: 4.1

Combined park facilities

FY04: 891 responses (based on 5 indicators)

FY04: Satisfaction measure: 88%
Average evaluation score: 4.4

Alaska Region Visitor Services

Assistance from park employees

FY04: 11 parks; 872 respondents

FY04: Satisfaction measure: 97%
Average evaluation score: 4.8

Park map or brochure

FY04: 11 parks; 799 respondents

FY04: Satisfaction measure: 94%
Average evaluation score: 4.6

Ranger programs

FY04: 11 parks; 522 respondents

FY04: Satisfaction measure: 95%
Average evaluation score: 4.6

Commercial services in the park

FY04: 11 parks; 434 respondents

FY04: Satisfaction measure: 75%
Average evaluation score: 4

Combined visitor services

FY04: 872 responses (based on 4 indicators)

FY04: Satisfaction measure: 92%
Average evaluation score: 4.6

Alaska Region Recreational Opportunities

Learning about nature, history, or culture

FY04: 11 parks; 801 respondents

FY04: Satisfaction measure: 95%
Average evaluation score: 4.6

Outdoor recreation

FY04: 11 parks; 505 respondents

FY04: Satisfaction measure: 94%
Average evaluation score: 4.6

Sightseeing

FY04: 11 parks; 733 respondents

FY04: Satisfaction measure: 95%
Average evaluation score: 4.7

Combined recreational opportunities

FY04: 801 responses (based on 3 indicators)

FY04: Satisfaction measure: 95%
Average evaluation score: 4.6

Research Methods

Survey cards were distributed to a random sample of visitors in 12 units of this region during the periods from February 1- August 31, 2004. At each park, visitors were sampled at selected locations representative of the general visitor population.

Returned cards were electronically scanned and the data analyzed. Responses from individual parks in the region were combined into one dataset. Data from parks with less than 30 returned cards, or from park with discrepancies in the data collection methods, were omitted from this report.

Frequency distributions were calculated for each indicator and category.

All percentage calculations were rounded to the nearest percent. Therefore, individual percentages in each graph may not add to 100 percent. The response rate was calculated by dividing the total number of returned survey cards by the total number of survey cards distributed. The sample size ("N") varies from figure to figure, depending on the number of responses.

For most indicators, the survey data are expected to be accurate within $\pm 6\%$ with 95% confidence. This means that if different samples had been drawn, the results would have been similar ($\pm 6\%$) 95 out of 100 times.

The results do not necessarily apply to visitors during other times of the year, to park visitors who did not visit the survey locations, or to park units in the region that did not participate in the survey.
